WORK EXPERIENCE

INFOWARE S.A

During my supervised internship at Infoware S.A, I immersed myself in projects that required mastery of advanced technologies such as TypeScript, JavaScript, MongoDB, and Node.js. Excelling in these tools, I made significant contributions to the development of innovative projects in a business environment. This experience not only expanded my skills but also solidified my theoretical understanding and provided valuable practical insights into the technology sector, strengthening my ability to tackle challenges with creative and efficient solutions.
